

My name is Jared Easterlin, and I am a 22 year old from Charleston, SC. I have been living in Columbia, SC the last 4 years while I attended the University of South Carolina. I graduated from USC in May of 2008 with a Bachelor's of Science in Civil Engineering.

On my free time, I like hanging out with friends, going to concerts, and taking road trips. I'm a very active person, and I enjoy almost all sports: soccer, golf, basketball, football, running, tennis, etc. I also like to surf and snowboard when the season is right.

I currently work at Dennis Corporation, a relatively new engineering firm out of Columbia, SC. I work in the construction services and construction management divisions and do a variety of jobs from soil testing to construction inspections.

I have always worked hard on any project that I have started and always make sure that things are done on time. I'm usually very organized, goal-oriented, and productive.

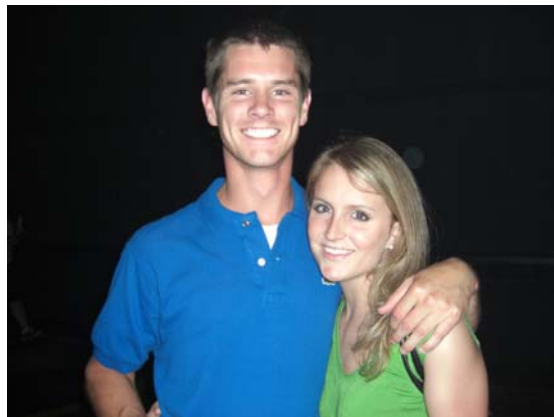

The hammerhead shark I caught in Key West.

At the river in Columbia, SC.

Me playing golf.

Me and my girlfriend, Ashley.
